INDEX---VOL. XLI.

A.

Action Taken by Board of Directors Washington (D. C.) Gas Light Company when Accepting the Resignation of Mr. B. H. Bartol, 8.
Albert Medal, Society of Arts, 59.
Ammonia, Extraction of from Blast Furnace Gases as Practiced in Scotland, 177.
American vs. Russian Sheet Iron, 239.
Australian Telegraphy, 266.
American Labor the Most Valuable, 266.
Ammonia. Rapid Determination of Fixed, 290.
Artificial Ball Lightning, 291.

B.

Baku Petroleum, 59.
Benches of "Threes,"—by T. G. Lansden, 90.
Burning of the Ferry House and Railroad Depot in Jersey City, N. J., Truth as to Origin of, 114.
Bakers' Ovens, Heating of by Gas, 147.
Building and Annex International Electrical Exhibition, 173.
Belgium's Coal Industry, 238.
Books Received, 310.

C.

Connellsville Coke, 2.
Central New York Gas Engineers Association, Official Report Fifth Annual Meeting, 8.
Coke for Generating Steam, Value of Compared with other Fuels—by J. L. Hallett, 8.
Correspondence, Special English, 9, 65, 121, 176, 233, 289.
Chemistry and Physics, Relation of to the Manufacture of Illuminating Gas—by Prof. S. H. Douglas, 31.
Chimney, Taking Down a, 41.
Cooling a Room, 41.
Crowded Out, 98.
Corks, How to Make Impervious, 127.
Comparative Value of Certain Fuels for Producing Steam—by C. H. Nettleton, 171.
Cast Iron, Painting of, 182.
Chemical Actions with Carbon and its Compounds, 207.
Cement, Setting of, 210.
Curious Properties of Coal Gas, 238.
Chemistry of Gas Making, Notes on—by E. McMillin, 283.
Coating Gas Mains with Coal Gas Tar—by G. A. Hyde, 284.
Consumers' Meters, Periodical Testing of—by C. H. Nettleton, 313.
Changes Made in Location of Some Pieces of Apparatus at Works of Providence (R. I.) Gas Light Company, Result of—by A. B. Slater, 318.

CORRESPONDENCE—

The "Line" Shrinks, 14.
They "Watched" Him, 41.
Objections to the Use of Water Gas as Fuel, 69.
Mr. John Somerville Sets Mr. C. H. Raynor Aright, 69.
Correction in Regard to a Portion of the Discussion at the St. Louis Meeting, 97.
Seeking Information, 124.
Late Newspaper Statistics Concerning Gas Matters, 125.
Gas Engines and Exhausters, An Answer to C. C. G., 125.
Running an Exhauster with a Gas Engine, 125.
"Expert" Testimony, 152.
Statement from Mr. Walker, 152.
Gas Stoves, 153.
Plain Facts which Furnish Rather Spicy Reading, 181.
Fuel Gas in Gas Engines, 181.
Explosion and "Agitation," 209.
Trying to Sell Their Bonds, 265.
How the "Pirates" Seem to Regard Each Other, 294.
Mr. Somerville Dissents from the Position Taken by Col. Stedman in Regard to the "Valon Theory," 204.

D.

Delta's Criticism on Mr. Somerville's Paper, 2.
Destruction of the Bloomington (Ills.) Gas Works, 13.
Dividends on Gas Stocks, Taxing of, 42.
Dip Pipes—by T. G. Lansden, 60.
Dieterich Furnace, 116.
Dynamos at the International Electrical Exhibition, 201.
Diffusion Lantern, a New, 282.

E.

Electric Lighting on Shipboard, 30.
Era, a New—by Antiquus, 37.
Electric Lights Go Out, 66
Electric Lighting Act, the English, 120.
Electric Wires, Careless Installation of, 126.
Elected, 147.
Electric Lighting, 210.
Electric Shock from a Kitchen Sink, 238.
Election of Officers, American Gas Light Association, 260.
Electric Tower Light at Hell Gate, New York, 266.
Explosive Gas Mixtures, Combustion of, 288.
Electric Light in Lighthouses, 294.
English Electric Lighting, Some Hard Facts in Regard to, 319.
Exhausters at the New Manchester (England) Gas Works, 319.

EDITORIAL—

Death of C. V. Smith, 1.
Truth about the Water Gas Matter in Washington, D. C., 1.
After Thoughts Relating to the St. Louis Meeting of the Western Gas Association—Numbers II, III., and IV., pp. 29, 58, 87.
Obituary—Mr. C. V. Smith, 59.
Settlement of the Gas Question in Newark, N. J., 85.
Semi-Annual Meeting of the New England Association of Gas Engineers, 113.
Washington Meeting, the, 141.
An Admirable Report, with Some Reflections Thereon, 142.
